PROFESSIONAL SUMMARY

Backend engineer with **7+ years of experience** building and operating mission-critical financial software at HSBC. Strong **Core Java** background across trading systems, OMS components, gateways, FIX connectivity, and event-driven messaging with Kafka and Aeron. Combines hands-on engineering, technical leadership, and production ownership with practical **AI-assisted development**, including reusable skills, coding-agent workflows, prompt iteration, and validation of generated outputs. Certified **HSBC Accredited Enterprise Engineer** and **Google Cloud Certified Professional Cloud Architect**.

TECHNICAL SKILLS

Backend & Distributed Systems: Core Java, Scala, Python, SQL, Apache Kafka, Aeron, FIX Protocol, Trading Gateways, Order Management Systems (OMS).

AI-Assisted Engineering: AI-assisted coding and debugging, coding-agent workflows, reusable skills, task automation, prompt iteration, validation of generated outputs.

Cloud & Delivery: Google Cloud Platform (GCP), Infrastructure as Code (IaC), Jenkins, Ansible, Groovy, CI/CD, Docker, Podman, Linux/UNIX, Git.

Engineering & Operations: Technical design, code review, performance optimization, production support for OMS & market connectivity, incident troubleshooting, monitoring, secure delivery, vendor onboarding.

SELECTED ACHIEVEMENTS

- Improved processing efficiency by **5–6 minutes** through Java application refactoring and performance engineering in a low-latency trading platform.
- Reduced privileged production access by **90%** by automating release processes, strengthening operational security and audit readiness.
- Improved IT compliance adherence by **95%** with a release-metrics and policy-breach monitoring tool adopted across multiple asset classes.
- Created reusable AI skills, agents, and workflows to streamline routine development tasks and improve team engineering efficiency.

PROFESSIONAL EXPERIENCE

Consultant Specialist – Cash Equities Technology

Nov 2023 – Present

HSBC Technology INDIA | Pune, India

- Lead three engineers through migration from a legacy vendor platform to a strategic solution, contributing to technical design, code review, and implementation.
- Designed Infrastructure as Code (IaC) to provision Google Cloud environments for third-party vendor software; coordinate vendor onboarding and operational readiness with engineering, operations, risk, and global stakeholders.
- Act as IT Service Owner for a key Cash Equities application, covering disaster recovery, audit readiness, vulnerability remediation, and operational governance.
- Introduce AI-assisted development practices through reusable skills, agents, and workflows that reduce repetitive engineering effort.

Senior Software Developer – Cash Equities Technology

Feb 2022 – Nov 2023

HSBC Technology INDIA | Pune, India

- Reduced end-to-end latency by decoupling legacy OMS components and improving system architecture; designed direct broker routing to reduce order-processing time.
- Led critical OMS upgrades with zero unplanned downtime and partnered with business stakeholders, vendors, and exchanges to resolve high-impact production issues.
- Provided production support for Order Management Systems and market connectivity, diagnosing live-market order flow anomalies and resolving incidents.
- Reviewed code and contributed to engineering standards for reliability, maintainability, and performance.

Software Developer – Cash Equities Technology

Jul 2019 – Jan 2022

HSBC Technology INDIA | Pune, India

- Led FIX Protocol onboarding for brokers and markets across EMEA and MENA; enhanced trading gateways for performance and reliability.
- Automated deployments and improved CI/CD pipelines, slashing release turnaround and eliminating operational errors; contributed to the UNIX SA community.

CERTIFICATIONS & ACCREDITATIONS

- ✓ **Accredited Enterprise Engineer** – HSBC (2023)
  Recognized for strategic technical leadership, enterprise architecture standards, and code governance.
- ✓ **Google Cloud Certified – Professional Cloud Architect** (2023)
- ✓ **Certified Ethical Hacker (CEH)** – Cryptus Cyber Security (2017)

HONORS & AWARDS

- **Pat on the Back Award (2025):** Codebase refactoring, maintainability, and IT Service Ownership governance.
- **Circle of Excellence Award (2022):** Automation improving production hygiene and cross-team communication.
- **Star Performer Award (2021):** CI/CD pipeline rewrite with improved security and compliance controls.
- **Pat on the Back Award (2019):** UAT ownership and monitoring automation.

EDUCATION

Bachelor of Technology (B.Tech) in Information Technology

2015 – 2019

Kalinga Institute of Industrial Technology (KIIT), Bhubaneswar
